Official Minutes of the Event: Work Package 2: DIVERSITY FOR A MORE INCLUSIVE EUROPE

Event Number: 2
 Event Name: DIVERSITY FOR A MORE INCLUSIVE EUROPE Type: Cine-Forum, Creative LAB, and Conference
 Location: Budapest, Hungary
 Date(s): 18/05/2023 - 20/05/2023

INTRODUCTION:

The second event of the InlusEU project, titled "Work Package 6: European Values, the Main Base of Volunteerism," took place in Budapest, Hungary, from May 18th to 20th, 2023. This event aimed to highlight the fundamental European values that underpin the spirit of volunteerism across the continent. The event was organized by Szubjektív Értékek Alapítvány (SVF) and featured a variety of activities designed to foster discussion and collaboration among the project partners. These activities included a cine-forum, creative lab sessions, and a series of conferences that provided a platform for sharing best practices and innovative ideas in the field of

volunteerism.

The event began with an opening gala that included welcome speeches from key representatives and performances showcasing traditional Hungarian culture. Over the following days, participants engaged in thematic discussions on the current state of the voluntary sector, creative workshops aimed at community building, and coordination sessions to plan future project activities. The event concluded with cultural activities and a guided tour of Budapest, allowing participants to immerse themselves in the local heritage and strengthen their network connections.

This document provides a detailed account of the activities conducted, discussions held, and decisions made during the event, serving as a formal record for presentation to the European Commission.

Implementation of Gender Perspective:

The second event has followed the statements agreed in the first meeting in Rafelbunyol (Spain):

The promotion and empowering underrepresented groups, particularly women and gender minorities, a total of **64,70%** of the participants were women. By including diverse voices in decision-making processes, we ensured that the interventions were inclusive and responsive to the varied experiences of all participants. This was accomplished by the number of women experts overrepresented during the event, specially in the diversification of speakers and audience regarding: gender, age or background.

Implementing gender-sensitive data collection methods, ensuring that the perspectives of both men and women were equally represented in the project's findings. This allowed us to track and assess the impacts of the actions from a gendered lens, and adjust strategies when necessary to avoid reinforcing existing inequalities. The outcome of these efforts resulted in a more equitable distribution of resources, opportunities, and support for all gender groups involved in the project.

All the presentations, and speakers have to have a gender balance, this helps us allow more public space for Associations, actions and projects lead by women.

Ethical Considerations in Implementation:

Established a robust framework for ethical decision-making, ensuring that all actions taken aligned with the highest standards of integrity, respect, and transparency. We provided clear communication about the project's goals to all the participants, methods, and expected outcomes to foster trust and promote informed consent at all stages.

In addition, we took proactive measures to ensure that the project did not inadvertently perpetuate discrimination or harm any of the stakeholders, particularly those from vulnerable or groups that suffer more discrimination. We conducted regular ethical reviews and risk assessments to identify potential areas of concern, which allowed us to adjust our approach when necessary. Furthermore, safeguarding mechanisms were put in place to protect participants' privacy and confidentiality, and all data was handled responsibly in accordance with ethical standards.

MAY 18 - THURSDAY - OPENING GALA

18:30 - 19:00 - Registration, Welcome session.
